The 1851 census of Prince Edward County is incomplete, unfortunately for those of us with ancestors who lived there. Only part one of Ameliasburgh and two parts each of Hallowell and Hillier townships remain, as far as is known. Prince Edward County, more familiarly known simply as "The County" by residents today, was one of the first settled areas of Ontario, having received its first settlers by 1788. It was not primarily a loyalist settlement, although there were loyalist famililes who located there. Most of the British and German soldiers received their military grants in the county, as did many settlers who came from the American colonies prior to 1789 (the accepted loyalist cut-off date). These latter made no claim to having been loyalists or soldiers, but still wished to settle under the British flag.

As can be seen from the remarks of the census takers, the land was not exactly the best available for cultivation, since there were no lasting rivers in the County. The shore is fiord-like, and although the County is 60 miles long, nowhere is the traveller further than about five miles from the shores of Lake Ontario. Thus, by the time this census was taken, many families had moved north into the more prosperous farming land of Hastings and Northumberland.

Interestingly, there are many Irish immigrants in this census, many of them having lately arrived at the Port of Kingston, usually on their way to other locations. Almost none of them remain settled in Prince Edward.

The 1851 census was actually taken in the early spring of 1852. The enumerator of Hallowell dates his enumeration as being taken in the midst of snowstorms in January and February of 1852. However, the Hillier enumerator comments on the beautiful and bountiful crops of that township as he passes through. This would seem to indicate he took his census in the previous fall of 1851. He could have made his comments from memory of the previous year, of course, and this is just one more fact to keep in mind while trying to calculate your ancestor's age from this document.

I have transcribed the census page-for-page from the microfilm, so anyone wishing to check my spelling or reading should have no trouble locating the exact sheet on which the entry of interest is to be found, using the sheet number at the top left-hand side of each page. As you know, the handwriting is often hard to decipher, and I have done the best I could. I have added questions marks where I was very uncertain. I am familiar with most of The County names in the census, as my own family was settled there for more than 100 years.

One troublesome name is Martin/Mastin. Both names occur, but it is nearly impossible to decide which is which. I make this note so that any of you with either name will be sure to check both. I would appreciate any corrections of any entries you may have to offer, and will include any I receive in future editions.

Elizabeth Hancocks, C.G.
Agincourt, Ontario, 1980

## THE LAYOUT OF THE CENSUS SHEET

The number of the entry is on the left, with the sheet number at the top left for reference to the microfilm.

The surname in capitals is followed by the names of the rest of the family. The surname is given only once in any family grouping.

Then follows, column by column:

Age, married or widowed
Place of birth
Religion
Occupation

The column on the extreme right of the page is for additional comments made by the enumerator. This sometimes includes the place of residence if the person did not live in that township, and sometimes also includes such information as deaths occurring that year, etc.

A full listing of all the information in the above categories appears for the first person listed in each family (the head of the family). For family members following, only variable information is shown. For the sake of clarity, no ditto marks are used. Thus, each family group can be singled out for research purposes.

Unfortunately, sometimes family groups carry over onto the following page of the transcript. The children listed on the succeeding page invariably belong to the parents at the bottom of the preceding page. In some census, actual pages are out of order in the original, and families listed in it have thus become dissociated. Fortunately, this is not the case with the Prince Edward census.

AMELIASBURGH twp
Hiram C Brown - Enumerator
District 1 - all that part of the said township west of the road leading from lot 86 in the 4th Concession to Rednersville.

13. One frame church held by WM capable of containing 400 persons.
    One stone church held in common with the WM and CE capable of holding 400 persons.
    David B Madden, W Minister
67. One grist Mill propelled by water, outlay in building and machinery £2000, contains 3 run of stones, produces 10,000 lbs flour per year.
    This water privilege is the best in the County both on account of it's Head and it's durability in dry seasons, Consecon Lake being 5 miles long and 1 mile wide acts as a resevoir in which almost any amount of water may be "stored" for the use of the Mill which is situate about 1 mile below the mouth of the lake and the water conducted to it be a natural channel.
71. Leather Factory wrought by horse power. The yearly product of which is perhaps £500, amount invested about £500.

HALLOWELL twp
Calvin Pier - Enumerator
District 1 - all that part lying south of the road leading from the township line at the east side of lot 10, Concession 1, to Wellington.

9. Richard Morgan, 1 grist mill, cost £1250, produces yearly about £250, one or two hands employed.
    James Cooper, leather manufacturer, wrought by horse power, cost about £75, net produce £75, invested yearly £150.
13. Samuel Noxon, 1 sawmill, cost £250, yearly produce £60, water powered.
    Obediah Cooper, 1 flouring mill £1000, waterpower, yearly produce £200.
15. Cory S Bull, flouring mill, cost £500, water power, average produce yearly £30. The owner of this mill says he has not done much this last 2 years past for some cause or other. The other 2 mills in the same neighbourhood you will see are doing better than this by their own.
17. John Morgan, 1 sawmill, fulling mill, and carding machine, carried by water power and does a good business when it runs. It is on a small spring brook, the sawmill only runs about 2 months in the spring while the spring freshet lasts, the cost of the whole about £750, 3 hands employed.
19. Roger B Conger, 1 flouring mill and saw mill, water power, cost £3000, average produce £400, 5 employed. This mill is 1½ miles from the Town of Picton on the Bay Shore on a small stream. The flouring mill runs upon an average 6 months in the year and the saw mill runs about 4 months in the year.

Enumerator's Comment. You will see on many sheets as on this that families cannot be registered all together as they do not come out even. The parents are entered on the foot of one page and the children at the head of another.

21. William Hart, stone ware factory, cost £300, wrought by horse power, amount of ware manufactured about £1000, amount invested to carry on pottery yearly £350, 5 employed.
27. Jane Lake's husband ran away and left her and she and her children live with her father.
31. Josiah Bowerman and Smith Phillips both live in one house, 2 stories, though the house is put down to only one as you will find in some cases.

33. Thomas Stinson, 1 saw mill, water power, cost about £100, produce yearly £20.
51. Friday 30 January
While I was filling this sheet I have never saw it snow faster.
53. Saturday 31 January
The snow has completely put a stop to all passing with teams. It is piled up over the highest fences so I am obliged to leave my horse and sleigh and make for home on foot, a distance of 4 miles as it is Saturday and no probability of getting home for 2 or 3 days to come.
57. Tuesday 3 February
I have just got my horse and sleigh home and commence to travel again but the roads are so filled up that I have to travel through fields to accomplish my Enumeration district and while I am travelling through the snow drifts my mind has been drawn out upon our legislators not in the way of finding faults but I have been thinking that they acted upon the Tory principle to make a rich man richer and the poor keep them so when they pass a law to give the Clerk of Peace 15s a hundred for copying the names of the persons in a book in his own office and give the Enumerator only 10s for every hundred when he has to travel all over the country through snow and storms and take all the statistics beside the names and ages, etc. I am not finding fault that the Enumerator does not get enough but that the Clerk of Peace gets too much according to the labour preformed.
59. William Hubbs, 1 saw mill and fulling mill and carding machine, water power on a small spring brook that starts from a spring about 1 mile from Picton and empties into what is called West Lake. It does a fair business of carding and fulling in the season for its cost which the cost on produce from it I cannot tell as he is not home at the time I was there and he promised since to give me a statement in writing but he has not done so, 2 or 3 hands employed while it runs.
Henry Harris, 1 saw mill on a very small spring brook, cost about £100, runs 2 months in the year, it cuts about 2000 ft per day when it runs and the lumber sells for £20 per 100, 2 hands employed in the press of water in spring.
61. Henry Lambert, 1 saw mill, waterpower, cost about £100 on a small stream that only drives the saw 2 or 3 months in the year and then not very brisk.

Enumerator's Comment. In my instruction I was directed to notice the rivers, roads and general character.As for rivers there are none in my division and the roads were covered so deep with snow there was no such thing as finding them but, being acquainted with the roads in summer I must say that they surpass any other locality for miles around. The main road to Wellington is nearly or all the way gravelled so it is as good as most of the macadamised roads. The soil is good in general. We have but very few streams in my division and those only last for a few months spring and fall. The character of the soil is various, some sandy loam, some gravelly land and some clay ground but in general as production in good seasons as any land in the adjoining counties. The potato crop has not even failed this year past and winter wheat, which you will see by the number of acres and the produce from it, but the spring crops in general are as good as in years past.

67. Thomas Gardner. This family of 9 boys live on a sand bank where they have plenty of fish and they look as though they were oiled with fish.

HALLOWELL twp
Isaac Ferguson - Enumerator
District 2 - all that part lying north of the road from the township line lot 10, Concession 1, to the Village of Wellington.

83. Near Gilbert French on Block G stands a school house 20x20 occupied as a place of worship by the EM, holds a congregation of 150 people.
87. On Thomas Warings land lot 18, Conc 2 Military Tract, stands a school house 20x16 occupied by the EM, holds a congregation of about 200 people.
93. This sheet contains the names of part of the inhabitants of Conc 3 Military Tract, good land in this Concession, well watered on the front but the rear no water without digging for the same, people generally in a thriving state. The last lot of this Concession, lot 24, contains considerable part of the Town of Picton.
95. On the front of lot 6, Conc 3, Military Tract, owned by R R Burlingham, stands a school house 20x20 has been occupied as a place of worship by EM and at other times by the WM, holds 150 people.
99. There is 1 tavern kept by James Huff on the road leading from the Town of Picton to the Consecon Village.
105. In this neighbourhood, viz. Gerow Gore, stands a school house about 20x20 occupied by the EM as a place of worship, holds about 150 people.
This sheet contains the names of those persons that reside on what is called Gerow Gore and Conc 2. The land on Gerow Gore is good also the concession that is hard land but most of the Concession is swamp what is generally termed the Consecon Swamp.
111. This sheet contains the names of persons who reside at the east end of the Conc 2 north of West Lake. Land is good in this Concession, no living streams. On lots 10 and 11 of this Concession is what they call the Salt Wells. Wells have been sunk many feet through a hard limestone rock and salt water obtained but not a suffivient quantity to induce capitalists to undertake to manufacture any quantity. Charles Bockey, Esq, expended (I am told) about £100, made a few barrels of good salt and gave it up.
121. This sheet contains the names of persons who reside at the westerly part of Conc 2 north of West Lake. Land good, no living streams of water (if any, unknown to the Enumerator), inhabitants appear to be in a thriving condition. Part of this Concession has been settled more than 40 years. Lying about 1½ miles from the flourishing viallage of Wellington.
123. This sheet contains the names of persons who reside on the westerly part of Irvine Gore commonly called the Irish Gore as the first settlers were Irish. Land of good quality, no living water as I could learn. Building poor with exception of 4 framed houses and they large and commodious.
125. This sheet contains the names of persons residing on Irvine Gore about 4 miles from Wellington.

HILLIER twp
Samuel Pennock - Enumerator
District 1 - all that part of said township lying north of the road leading from Corry's Point to C Vanhorns thence through the Clapp Settlement to the township line near Bowermans.

/7. 1 carding and fulling mill, cost £300, horse power, average produce £60
31. 1 saw mill, water, av produce £25 annual, £15 value, 1 employee
1 carriage factory, 1 turning lathe, av produce £50 per annum, 2 employed

35. 1 tannery, av produce £50, value of Jan £75, 1 employed
41. 2 saw mills wroughtby water power, £225 av produce
49. 1 flouring mill wrought by water, av produce £100, value of property invested £600, 1 employed
    1 saw mill, lying idle, the stream not being sufficinet to suppot it.
57. 1 saw mill wrought by water, av produce for year £100, cost of building and machinery £100.
61. #49 and #50 are twins born 7 Jan 1850, son and daughter of Thomas McCarter, Hillier
63. Land is generally limestone, gravel and clay, £3 per acre.
    #20 is Mr Vincents' second wife.

HILLIER twp
Thomas McKillip - Enumerator
District 2 - all that part of the said township lying south of the road leading from Corry's Point to C Vanhorns thence through the Clapp's neighbourhood to the township line near Bowermans.

65. William Cox, age 61 years died this year of Dropsy (listed beside first entry)
    This sheet comprises a section of Hillier on the south side of the road leading from Corey's Point through Pleasant Bay Valley, soil excellent, which will be seen from the return.
67. This is a continuation of the Pleasant Valley containing a beautiful portion of Hillier well watered and very excellent soil.
69. Comprising the south side of a portion of road leading through Clapp's Settlement to Bowermans and from thence on the township line between Hillier and Hallowell towards Wellington.
71. Route on township line to Wellington, soil pretty good.
73. Comprising a portion of the flourishing village of Wellington.
75. Comprising a portion of the village of Wellington.
77. Wellington continued.
79. Terry's Foundary, steam power, cost £400, in good order, 3 employed.
83. McFaul's Wharf and storehouse, cost not ascertained.
87. Comprising a section of the township of Hillier on the Lakeshore road leading from Wellington to Huyck'e Point, soil tolerably good, well watered, very pleasantly situated on the shore of Lake Ontario.
89. Land's saw mill, water power, cost £200, saws 30,000 feet per annum, 1 employed
    Selim Huyck's tannery, cost £200, 2 employed.
    Wellington continued.
92. Road leading from Wellington to Huyck's Point, bounding on Lake Ontario, good soil, well watered.
93. South side of Hillier on shore of Lake Ontario, soil pretty good, well watered.
95. 1 grist mill, 2 run of stone, value £625, water power, 1 employed
    A section of lands on the south side of Pleasant Bay Valley, soil excellent, and very well watered.
99. Comprised of the Beards' Settlement, good soil, not well watered.
103. 1 grist mill, owner Jotham Raynor, 2 run of stone, water power, cost £1000, annual produce from 4000-6000 bushells, 2 employed.
    A part of the German Settlement, soil excellent, well watered and in a high state of agriculture.
105. Including part of the German Settlement, soil excellent, and part of Hubbs' Settlement, land pretty good, well watered.

107. Hubbs' Settlement, soil pretty good and well watered.
109. Comprising a portion of the lands bounding on the Lakeshore, soil pretty good.
111. 1 carding machine, water power, 1 fulling machine, 1 cider mill, 1 clover? mill, 1 turning mill. Value of above with 4 horse power and steam engine £500, 2 employed.
A section of the Main Road leading from Pleasant Bay to Wellington, soil good, pretty well watered and in a good state of cultivation.
113. On the Main Road leading from Pleasant Bay to Wellington. Soil very good, in high cultivation.
115. A part of the Haight Settlement, soil pretty good, well watered and in a good state of cultivation.
